PorkPAC Auction

Nov. 19, 2025 • 7:00 PM

Calusa 7

The Program

This program allows the U.S. pork industry to educate and support candidates at the federal level whose views coincide with the interests of pork producers, processors, marketers, consumers, and the pork industry as a whole.

Why It Matters

A financially strong PorkPAC strengthens the National Pork Producers Council's (NPPC) grassroots, communications, and public policy programs to counter the well-coordinated and well-funded activities of opposition groups. PorkPAC leverages the pork industry's financial stake in the political process, and PAC contributions increase the pork industry's visibility and access to candidates who share the industry's views on legislative and regulatory policies. It also increases the pork industry's political credibility as a way to hold lawmakers accountable for their actions.
